Newberry Industrial Services Announces Leadership Team, Names Matt Edson as President and Art Briones as Chief Operating Officer

TAMPA, FLORIDA • 7/10/2026

Newberry Industrial Services is pleased to announce the appointment of Matt Edson as President and Art Briones as Chief Operating Officer (COO) as the company launches its next chapter of growth and expansion in industrial services.

**Matt Edson, President**

Matt brings 37 years of experience across the industrial, environmental, and heavy industry sectors; shaped by extensive work in environmental services, chemical processing, phosphate operations, power generation, mining, material handling, nuclear support; managing reactive maintenance, capital construction, and major outage execution. Matt's brings a comprehensive understanding of complex operations and the disciplined leadership required to guide organizations in high risk, mission critical environments.

Matt's focus is on strengthening our core team through disciplined development, leadership fundamentals, and building a culture where safety, quality, performance, and growth are shared commitments. Matt's alignment philosophy states, "when our people grow, our organization grows and when our teams succeed, our clients succeed" guides how Newberry Industrial will evaluate opportunities, weigh risks, and ensure that we deliver high quality, turn critical results within planned timeframes.

As President, Edson will lead the company's strategic direction, business development initiatives, and overall growth strategy while fostering a culture centered on customer success and operational excellence.

**Art Briones, Chief Operating Officer**

Art Briones is an accomplished industrial construction senior executive with more than 30 years of experience of building industry leading organizations and leading complex industrial projects. Throughout his career, he has built a reputation for delivering safe, high-quality, and cost-effective construction solutions while developing strong, lasting relationships with clients and project Teams.

Art's extensive experience spans the phosphate and mining industry, aerospace, nuclear power, cement and aggregates, and fuel terminal facilities. Art is well known for his commitment to delivering exceptional results, fostering strong client relationships, and leading teams that prioritize safety, innovation, and performance in every project.

As Chief Operating Officer, Art will oversee daily operations, project executions, and organizational performance, ensuring that Newberry Industrial Services delivers exceptional service and maintains the highest standards of safety, quality and customer service.

Newberry Industrial Services is a Cap Pro-owned company, joining fellow sister companies Electrical Engineering Enterprises, Inc. (EEE) and Flo Power & Substation Services (FPSS). Together, the CapPro family of companies provides customers with turnkey capabilities spanning industrial electrical, testing and commissioning, substation construction, power delivery, and industrial services solutions.

About CapPro, LLC

CapPro, LLC is a locally owned and operated holding company focused on industrial, electrical, and infrastructure service companies. Through its operating companies — Electrical Engineering Enterprises (EEE), Flo Power & Substation Services (FPSS), and now Newberry Industrial Services — CapPro delivers specialized solutions to customers throughout the industrial and utility sectors.
